

Together our generation can end AIDS!

It's about you to take action and to make sure that we achieve this goal.

The youth-led initiative **Youth against AIDS** (YAA) is enforcing the role of the youth in the fight against HIV / AIDS. As official partner of this year's International AIDS Conference, 300 youth activists will represent their generation's interests in Amsterdam. You could be one of them! The principle of our work is: **Do what you want. Do it with love, respect and condoms.**

As a volunteer at this year's International AIDS Conference you will help to make this event a success. Besides your support as a volunteer you will get the opportunity to exchange with young activists from all over the world, to get inspired and become active yourself. Together we can end AIDS! Will we succeed? It is up to you!

Your profile:

- You are **between 18 - 26 years** old and preferably already active in the field of HIV/AIDS prevention, sexual education or sexual health?
- You speak **fluent English** and you are excited to go one step further?
- You are willing to learn and try new things?
- You are **long-term committed** to sexual education together with Youth against AIDS?
